CWA 404	Rosemont Copper Mine, AZ - Corps' permit elevation decision	Rosemont is a proposed 5,000-acre copper and molybdenum open pit mine near Tucson. Construction requires filling 18 linear miles of streams. Although the project would create jobs and have a significant contribution to U.S. copper production, it could negatively impact outstanding national waters, wildlife habitat, endangered species, water supply, ag production and tribal land. In July 2016, the Corps LA District proposed a 404 permit denial.	Awaiting Corps South Pacific Division decision on final 404 permit. 3/10/17- Applicant met with Corps Division Commander.		<div>Deliberative Process / Ex. 5</div>	Water	ORC, ENF, OWOW
